***DENSO***  
Crafting the Core

**About the Company:** DENSO is a leading supplier of advanced automotive technology, systems and components for all the world's major automakers. About 25% of the company is owned by TOYOTA which is the largest car manufacture in the world.

The customers of us include all manufacturers in Japan such as Toyota, Honda, and Suzuki. We have supplied parts to most automakers you have heard of including those in the US and Europe. In other words, working at DENSO means influencing cars all over the world. If we develop an advanced product or system that is friendly to the environment, it can be supplied to automakers around the world. Our strength is our ability to contribute to society by supplying products and systems to cars in every corner of the world. We are looking for new talents who learn by themselves, think for themselves, and continue to challenge to realize new value.
