

### Minutes of the Meeting

Name of the Meeting	2 <sup>nd</sup> Board of Studies	Ref. No.	Email Communication dated July 6, 2021 by the Chairman (BoS)	
Platform	Zoom	Date	July 31, 2021 (Saturday)	Time
Members Present	Dr. B. Naresh, Associate Professor, University College of Engineering, JNTUK, Kakinada (University Nominee) Dr. Srinivas Bhaskar Karanki, Asst. Professor, IIT Bhubaneswar (Academic Council Nominee), Dr. Shankar Peddapat, Associate Professor, NIT AP, Warangal (Academic Council Nominee), Mr. B. Srinivas Reddy, DGM, RINL, Visakhapatnam (Industry Nominee), Mr. B. Santosh, Junior Manager, Vizag Steel Plant, Visakhapatnam (Alumni), All Members of faculty (Electrical and Electronics Engineering Program) and Dr. R.S.R. Krishnam Naidu, Chairman (BoS)			
Sl. No.	Description	Remarks		
1	Panel suggested to categorize honors subjects from 4 categories to 2 categories and start from 6th semester.	Suggestions are noted and will be discussed in the internal BOS meeting.		
2	Panel suggested to either go with general courses or basic courses for minor subjects.	Suggestions are noted and will be discussed in the internal BOS meeting.		
3	Panel suggested to move summer internships to 4 <sup>th</sup> and 6 <sup>th</sup> semester from 5 <sup>th</sup> and 7 <sup>th</sup> semester.	Suggestions are noted and will be discussed in the internal BOS meeting.		
4	Panel suggested to confine tutorials to 1 or 2 hours per week.	Suggestions are noted and will be discussed in the internal BOS meeting.		
5	Panel suggested to add "A Textbook Of Electrical Technology AC And DC Machines" by B.L. Theraja, A.K. Theraja to the textbook of "20EE304 - DC Machines and Transformers" subject.	Modified as per suggestion and it will be sent to panel members soon.		
6	Panel suggested to add advance courses on power electronics, power quality, grid integration of renewable energy sources.	Suggestions are noted and will be discussed in the internal BOS meeting.		

7	Panel suggested to include automation of power systems to "20EE009 - Switch Gear and Protection" subject in Professional Elective course and confine Automotive Electrical Engineering subject to e-vehicles.	Suggestions are noted and will be discussed in the internal BOS meeting.
8	Panel suggested to rename "20EE405 - Electro Magnetic Fields" to "Electro Magnetic Field Theory".	Modified as per suggestion and it will be sent to panel members soon.
9	Panel suggested to add 2 more experiments in "20EE307 - DC machines and Transformers lab".	Modified as per suggestion and it will be sent to panel members soon.
10	Panel suggested to add experiments on RLC in "20EE308 - Electrical Circuit Analysis Lab".	Modified as per suggestion and it will be sent to panel members soon.
11	Panel suggested to split experiments in "20EES01 - MATLAB" into 2 sections i.e., theory and introduction as first part and practical experiments as second part.	Modified as per suggestion and it will be sent to panel members soon.
12	Panel suggested to remove the term "simple problems", placed in "20EE403 - Control Systems" unit-3.	Modified as per suggestion and it will be sent to panel members soon.
