### Give a write up on the content delivered in the event

The purpose of National Pollution Control Day is to emphasize the need for pollution control measures and to educate people about the adverse effects of various types of pollution on human health and the environment. On this day, Dr. R. Gokulan, VNR VJIET, Hyderabad Addresses various root causes for pollution and explained how we can reduce the pollution. The total 65 Students of NSRIT participated in this event and extended thanks to Mr. Haragopal lead NSS.

#### Purpose:

National Pollution Control Day, observed annually on December 2nd, aims to raise awareness about the adverse effects of pollution on human health and the environment. The day commemorates the Bhopal Gas Tragedy and emphasizes the need for stringent pollution control measures, promoting sustainable practices for a cleaner, safer world.

#### Conclusion:

Through awareness events, it emphasizes the significance of individual and collective actions in curbing pollution. The day serves as a catalyst for ongoing efforts, underlining the commitment to fostering a cleaner, healthier planet through sustainable practices.
